

Palm Oil & Palm Kernel Oil Environmental Statement

Greenearth Solutions is committed to using raw materials manufactured from sustainable sources. This commitment includes palm oil (PO) and palm kernel oil (PKO).

Responsibly addressing the social and environmental issues associated with Palm Oil (PO) and Palm Kernel Oil (PKO) is a priority for us at Greenearth, as it is for many of our customers.

It is our policy to avoid the use of unsustainable and untraceable palm oil. Our intention is to only purchase ingredients from suppliers that are either palm oil free or if they do contain palm oil then that palm oil has been sourced from Roundtable on Sustainable Palm Oil (RSPO) certified sustainable palm oil plantations.
